

## AgilePM® - Foundation level qualification – 2 Days

### **About the course**

This **2 day** course, accredited by APMG International, and created in conjunction with the Agile Business Consortium, provides the world's first independent certification in Agile Project Management.

It provides delegates with an understanding of how the Agile Project Management process can enable planning, management and control of successful and well-controlled Agile projects.

The course is delivered by highly experienced trainers approved by APMG International and is a blended course including practical workshops during classroom training.

The course provides the opportunity to gain certification at Foundation level.

### **Course objectives**

To give delegates a practical understanding of Agile Project Management based on the internationally recognised framework of DSDM Atern.

This will enhance the delegates ability to;

- manage more effectively in an Agile project environment;
- understand the difference between simple agile approaches undertaken during product development (work package level) and the more complex considerations for greater governance and control (project level);

This course will prepare delegates for the Foundation exam.

### **Course content**

The course follows the Foundation level syllabus and includes:

- Fundamentals and the Philosophy; Principles; Preparation; Lifecycle and Products; Team structures
- Roles and Responsibilities; Communication; MoSCoW and Timeboxing; Lifecycle Configuration
- Estimation & Measurement; Quality & Maintainability; Planning, Control & Risk; Implementing AgilePM.

### **Examination**

The Foundation level examination is a 40 minute, closed book examination of 50 multiple choice questions. The required pass mark is 50% (25/50).

### **Course audience**

The course is aimed at Project Managers who are operating in an agile environment running more complex and scalable projects and Team Managers operating in Agile projects.
